PROFESSIONAL SUMMARY

Full-stack developer experienced in Vue 3, Node.js, and MySQL, building responsive web applications and data-driven systems. Skilled in REST API development, database design, and UI implementation. Strong problem-solver focused on building efficient, scalable solutions in collaborative environments.

SKILLS

Languages & Frameworks: JavaScript (ES6+), Vue 3, Python, PHP, Node.js, HTML5, CSS3

Databases: MySQL, Oracle APEX, Microsoft Access

Tools: Git, VS Code, Visual Studio, Microsoft Office Suite

● PROJECTS

● E-commerce Wood Craft Workshop

Tech: Vue 3, Node.js, MySQL

- Developed a full-stack e-commerce platform
- Designed database structures for products, customers, and orders
- Built REST APIs supporting core functionality
- Implemented dynamic product search and filtering
- Developed responsive UI components

● OT Enterprises Insights Dashboard

Tech: Oracle APEX

- Built an interactive data visualization dashboard
- Designed sorting and categorization logic for large datasets
- Developed dashboards improving data accessibility
- Enhanced UI clarity through optimized layout and contrast

SpySee — Digital Attendance Platform (Tech Lead · Scrum Master) 2026

Tech: PHP, MySQL, JavaScript, QR Auth

- Life Choices Cohort 17 · Live: spysee.lcstudio-incubate.co.za
- Led a 5-person team as Tech Lead and Scrum Master — ran Agile ceremonies, reviewed code, and drove delivery from concept to a live production deployment.
- Architected and built the QR-based attendance logic — the core engine handling check-in/out, lateness, and shift completion.
- Owned QA across releases and coordinated live deployment via FileZilla; app is publicly accessible and serves real users.

EDUCATION

Life Choices Academy — Full-Stack Web & Enterprise Development (2025–2026)

- Program logic and core development principles
- Front-end: HTML5, CSS3, JavaScript (ES6+), Vue 3
- Back-end: Node.js, Python, REST APIs
- Databases: MySQL, data architecture fundamentals
- Oracle APEX dashboards and data visualization

Optima College — Data & Development Certification (2022–2023)

- Database logic (Microsoft Access)
- Visual Studio development environment
- Microsoft Office Suite

Malibu High School — National Senior Certificate (2020)

- Mathematics, Physical Sciences, Life Sciences, Geography

ADDITIONAL EXPERIENCE

Administrative & Technical Support (Training)

- Assisted with hardware setup and troubleshooting
- Improved administrative workflows using Microsoft Office tools
- Applied database principles for structured data management
